Shelter Neck is on the left. Welcome Home

Williams Hall

An Invitation: Come discover Shelter Neck Unitarian Universalist Camp: Enjoy an intergenerational event where you can bring your family for a relaxing week-end and explore creeks in a canoe; or just rock on the porch like you did at Grandma's. UCONCI subsidizes several Intergenerational Weekends each season for families including program, meals, campfire, and fun activities, open to all. Shelter Neck is more than just a place, ~ it's a "special place."

Dinnertime at Shelter Neck

For over a century, Shelter Neck has been a meeting place for Unitarian Universalists. Located in rural southeastern North Carolina, Shelter Neck originated as a school for children who otherwise would not have had access to education or broad cultural experiences. The National Alliance of Unitarian Women established the school in 1902 and provided students with studies in literature, languages, and fine arts along with the "3-Rs". The students returned the favor by providing Southern hospitality and devotion to their teachers and their school. Together, they shared a certain warmth which is still experienced today and permeates the atmosphere of the campus. In addition, the experimental farming at Shelter Neck was a forerunner of the state's agricultural experiment stations. The Future: A Wilmington consulting firm has worked with a UCONCI committee in formulating long-range plans for future construction to include campsites, playground, bathhouse/restroom facilities, volleyball and tennis courts, meditation and nature trails. While progress has been hindered by Hurricane and flood damage and repairs in 1999, the \$65,000 restoration project and hard work of many volunteer supporters has spurred a resurgence in use and interest among UU Congregations in North Carolina and beyond. Shelter Neck is truly becoming what its founders envisioned it to be. Plans are being made for the next major expansion. Come be a part of our future.

Shelter Neck UU Camp

Is a forty acre property owned by the Universalist Convention of NC Inc. and maintained by volunteers from UCONCI member churches. Handicapped accessible Buildings include; Dix House, a three story farm house with a front screened porch and large back deck; William's Hall, a former Unitarian School; the Shelter Neck Church, built in 1900; a gazebo, and a workshop building.

There is no paid staff and renters must bring all food and necessary items for their event, program, and their comfort. These include bedding, towels, toiletries, drinking water, Etc. The camp is served by a water well and septic tank, and there is NO garbage pick up so trash must be removed when you leave.
